[AUBURN HILLS Registration Sept 24](#)

A Learn and Practice Event

We are excited to offer a special training event to introduce the next steps in achieving statewide training reciprocity. We'll review the implementation plan, take a tour of the Improving MI Practices website, gain an understanding of the Test Out process, and learn how to vet your training against the state training guidelines.

For the afternoon "Vet and Learn" session, please bring your training material for Emergency Preparedness. We will work in small groups and practice together using this class and guideline.
