Presents:**

Housing Supports: Building your Creative Toolbox

**Presented by: Kevin Bogg, LBSW
Housing Services Manager**

Are you unsure of how to assess if an individual is REALLY ready to explore independent housing options? This 3 hour session will give case managers and other service providers working with individuals with housing needs a basic understanding of housing options and terms often used in the community. Gauging if a consumer is ready to move into and maintain a place of their own is discussed. Individuals who lack affordable, safe housing often times benefit from an alternative approach to case management. This session will help service providers gain a better understanding of relations options and techniques.

Registration Information:

- Space is limited and pre-registration is required. You may register by:
Visiting TTI's website at ttiinc.org OR
Emailing Dolores Carter at dcarter@ttiinc.org OR
