

**It's a good start,  
when you begin with SMART**

SMART provides regional transit for Southeast Michigan, offering dependable transportation for people going to work, school, medical appointments and other destinations. Offering a variety of services, SMART is able to provide safe and cost-effective transportation to residents of the region, including seniors, the disabled and those with transportation challenges.

### **Fixed Route**

SMART Fixed Route buses pick up and drop off at designated bus stops and run on a set schedule. With 43 routes and over 5,000 bus stops, we are never far from where you are.

### **Connector**

Connector Service is an advance reservation, curb-to-curb, service operated by SMART. When using Connector, you may travel anywhere within a 10 mile radius of a designated service area. Rides are available on a first come, first served basis and reservations are required. A six day notice is recommended for medical appointments and a two day notice for other destinations.

### **Community Transit**

Community Transit allows local communities or groups to partner with SMART to share the responsibility of operating local Community Transit Service. Each community service provider customizes its days, hours, and travel to the specific needs of the community.
