

## Inspiring Girls Hope Program

The Mission: Prevention Education for Children, Youth and Young Adults'

**Inspiring Girls Hope Tea Time** also creates an environment in which encouraging dialoguing can be shared. The program reaches out to young females, ages 9 to 17, in an effort to reach pre-teens and adolescents during the pivotal development stages of transitioning to adulthood. The gentile elegance of a tea time represents a sharp contrast to the harsh, aggressive, and hurried society in which our female youth are presently being raised. **Inspiring Girls Hope** is an opportunity for young females to take time out...to take time to explore and discover and to learn from the significant older women in their lives. This important *transfer of information* is done in a way that is positive, encouraging and just plain lovely. There is no reproach, no reprimand, no demand—just loving, non-judgmental encouragement.

### The Inspiring Girls Hope Tea Time format includes:

- time for the sharing of life's commonalities,
- etiquette and self –esteem
- reflection of one's own life and feelings.
- a moving introduction to the strength that can be gained from positive environment.

**Tea is life affirming.**

The Inspiring Girls' Hope program meet monthly on 2<sup>nd</sup> Saturday, and used to show young girls how to develop good interpersonal skills and social etiquette, to be kinder and gentler in their approach towards others, and to be courageous as they develop their personal lifestyle.
