---

Every year in Michigan nearly 150 babies die before their 1st birthday. On behalf of the Detroit Health Department (DHD), and the Michigan Department of Health and Human Services (MDHHS), we need your support to help put an end to this 100% preventable tragedy. This is a call to service for our faith-based partners to collaborate with us, to support families who have experienced the loss of an infant due to unsafe sleep practices, and to raise awareness within the community at-large.
