Come build super-cool models that use gears, axles and technic bricks. In the morning, children will use engineering and physics concepts as they work in teams under guided instruction to build a different model using LEGO® TECHNIC® bricks each class!

In the afternoon, children will create their own video game in this awesome Snapology program. We'll teach you how to design your very own online game that can be shared and played at home with family & friends. Don't miss out. Material Fee of \$12 due at the first class.
