

# **Narcan® (Naloxone) Training**

**Families Against Narcotics offers FREE Naloxone training sessions for community members interested in learning how to properly administer the medication.**

**Each attendee will receive a kit. Register Early!**

**Narcan is a medication called an "opioid antagonist" used to counter the effects of opioid overdose, for example a heroin overdose. Narcan only functions if a person has opioids in their system; the medication has no effect if opioids are absent.**

**NARCAN® Nasal Spray is to be given right away and does not take the place of emergency medical care.**

**Get emergency medical help right away after giving the first dose of NARCAN® Nasal Spray, even if the person wakes up because symptoms may return.**

**Repeat doses may be necessary.**

**See page 2 for a list of the trainings.**

**Register at: <https://www.familiesagainstnarcotics.org/narcan>**
