

# ATPWC COMMUNITY OUTREACH

## Substance Use Disorder Education & Narcan Distribution

Per a CDC Press Release dated Dec 2020, "Over 81,000 drug overdose deaths occurred in the United States in the 12 months ending in May 2020, the highest number of overdose deaths ever recorded in a 12-month period, according to recent provisional data from the Centers for Disease Control and Prevention (CDC). While overdose deaths were already increasing in the months preceding the 2019 novel coronavirus disease (COVID-19) pandemic, the latest numbers suggest an acceleration of overdose deaths during the pandemic."

The CDC has challenged us to learn about opioid risks, learn about naloxone (Narcan) and how to use it, help people struggling with addictions to find care/treatment, and learn about prevention efforts. ATPWC is honored to help in this challenge and hopes that you will join us!

**Please join us for a FREE brief educational training to learn about addiction, overdose, and administration of Narcan nasal spray in an opioid crisis.**

**Preregistration is required.**

**You must be at least 18 years of age to receive a kit which includes 2 doses of 4mg nasal Narcan.**

**The ATPWC Family of Clinicians is honored to serve our community and help others to take the steps to becoming the best versions of themselves!**

### **Day/Time**

**Friday March 24, 2023  
6pm-8:30pm**

### **Location**

**ATPWC  
16645 15 Mile Rd  
Clinton Twp, MI 48035**

### **Cost**

**FREE**

### **Register**
