

Women & Alzheimer's Research: A Webinar in Honor of Women's History Month

Join the Alzheimer's Association Michigan Chapter for a special virtual presentation in honor of Women's History Month.

Both professional and family caregivers are encouraged to attend.

During this webinar, we will:

- Discuss the unique ways in which Alzheimer's disease disproportionately impacts women who are living with the disease as well as caregivers.
- Examine the potential biological and social reasons for these disparities.
- Learn about new and exciting research in the field.

Thursday, March 13

12-1 p.m. EDT

This FREE webinar will be held via Zoom. Participants are encouraged to register.

Guest Speaker

Courtney Kloske, Ph.D., is Director of Scientific Engagement for the Alzheimer's Association.

Dr. Kloske has led research studies on genetic risk factors of Alzheimer's disease at the University of Kentucky.

60%

of dementia caregivers are women

2/3

of people living with dementia are women

This training is approved for one regular CE clock hour for social workers.
