

HEALTHY HABITATS AND PRODUCTIVE POLLINATORS

Taking action today to support
tomorrow's pollinators

Thursday, June 18, 2026
9AM – 4PM

Crossroads Village
6140 Bray Rd., Flint, MI

Join in for a full day of learning as we explore the latest research from pollinator experts. Learn about pollinator trends in Michigan and get inspired by community efforts that support important pollinator species. Stroll through the beautiful gardens at Crossroads Village as you search for pollinators in action and attend interactive workshops where you can gain practical skills and inspiration to support pollinators in your own yard. Don't miss this exciting opportunity to learn about protecting the future of Michigan's pollinators.

Dr. Elaine Evans, University of Minnesota – The latest buzz on bee research.

Logan Rowe, Michigan Natural Features Inventory and MSU – Long-term trends of bumble bees in Michigan and easy ways to support local populations.

Karma Thomas and Jennifer Rodel, MSU Entomology Lab - Supporting crop pollinators in urban spaces through research and extension.

Lindsey Kerr, MSU Extension Educator – Planting Containers for Pollinators (hands on)

Dr. David Lowesntein, MSU Extension Educator – Pollinator identification and field walk

Carolyn Miller, W.J. Beal Botanical Garden – Native plant landscaping walk

Ana Heck, MSU Extension Apiculture Educator – Pollinator Protection from Pesticides
